Social Impact Report

peoplefirstcu.ie

Introduction to our Social Impact Report

At People First Credit Union, our success is measured by more than financial performance alone. While strong governance and financial stability are essential, we believe our true impact is reflected in the positive difference we make in the lives of our members, our communities, and the environment we all share.

This Social Impact Report captures the breadth of our activity throughout the year — highlighting not only the services we provide to members, but also the wider social, community, and environmental initiatives that underpin our cooperative values. As a not-for-profit, community-owned financial institution, People First Credit Union exists to serve the needs of our members, support local development, and reinvest back into the communities where we operate.

In an increasingly competitive financial landscape, we remain committed to offering a trusted, sustainable alternative — one that combines modern financial services with a strong personal connection and a deep understanding of local needs. Demonstrating our social impact allows us to show how these values translate into real outcomes for members, volunteers, community groups, and local organisations.

We also recognise our responsibility to operate in a way that protects the environment and supports long-term sustainability. Throughout the year, we have continued to review our processes, reduce our environmental footprint, and embed responsible practices across our operations.

In line with the wider credit union movement, we ensure that our work contributes positively to social inclusion, economic resilience, and environmental stewardship. This report is an opportunity to reflect on that contribution and to share with our members how, together, we are building stronger communities for today and for the future.

“ Hi,
I had to draw down a loan
for my divorce proceedings.

It's been a very draining few months and I applied over the weekend. I got talking to the Loan officer, Sharon, who went above and beyond to get me sorted.

I just wanted to share my appreciation for the efforts and friendliness of these ladies. It made my experience the best that it could possibly be and I will be forever grateful for the professionalism and just how easy they made it for me.

Thank you
